

VARE NR. 65002

OPERATING INSTRUCTION

Thank you for purchasing our product. Please take a moment to read through these instructions and familiarise yourself with the product before using it. This will ensure that you enjoy optimum performance and a long service life. Please keep these instructions in a safe place for future reference.

Technical information

- | | | |
|--|------------------------------------|--|
| ➤ Case material: aluminium | LED Chip: US Cree LED | Dustproof and waterproof grade: IP54 |
| ➤ Size: $\varnothing 15 \times 139\text{mm}$ | Max. output: 110 lumens | Shockproof: From a height of one meter |
| ➤ Weight: 36 grams (excluding batteries) | Max. beam distance: 50 meters | |
| ➤ Battery: 2 x AAA alkaline | Burn time: 3 hours down to 1 lumen | |

Installing the battery

Hold the aluminium casing firmly in one hand and turn the end cap in a counter-clockwise direction until fully unscrewed (see figure 1). Pull the end cap away from the casing and this will reveal the battery compartment. Push the battery into the compartment with the positive (+) pole first, towards the head of the torch (see figure 1). With the battery correctly installed replace the end cap and turn it in a clockwise direction until fully tightened. The flashlight is now ready to be used.

IMPORTANT: Please ensure that the battery is installed correctly otherwise battery damage may occur, possibly resulting in an explosion. Never try to recharge the battery and only use a high quality one. If you do not intend to use the flashlight for a long period of time, remove the battery to prevent it from leaking and damaging the flashlight.

Operating the Flashlight

To switch on the flashlight simply press the end cap switch until it engages, then release. To switch the flashlight off, press the end cap switch once again until it disengages, then release.

WARNING

The light from this flashlight is very powerful and should not be shone directly into anyone's eyes, as this may cause short term blindness. If the beam does shine in your eyes, close them and look away immediately.

In the case of commercial use, the user of the flashlight should only use this product in accordance with any local laws and regulations.

The symbol shown on the right means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The Waste of Electrical and Electronic Equipment (WEEE) Directive (2002/96/EC) has been put in place to recycle products using best available recovery and recycling techniques to minimize the impact on the environment, treat any hazardous substances and avoid the increasing landfill.

Product disposal for residential users.

When you have no further use for it, please remove any batteries and dispose of them and the product as per your local authority's recycling processes. For more information please contact your local authority or the retailer where the product was purchased.

Product disposal for business users.

Business users should contact their suppliers and check the terms and conditions of the purchase contract and ensure that this product is not mixed with other commercial waste for disposal.
