BATO Non-sparking Tool Set-50pcs

BATO non-sparking tools are made of expensive and rare non-ferrous metal in good proportion. They are one-time die forged, with high hardness, strong torque, and completely in accordance with Germany DIN standard.

All BATO non-sparking tools are BAM and ATEX certificated.

They are widely used in petro-chemical, oil production, gas production, oil and gas pipelines, power generation, mining, plastics, chemical fiber and other industries.

Weight: 0,000 kg.
