

BGS Gas Detector

- detects methane, isobutane and propane gas
- easily pinpoints gas leaks
- calibrates automatically when power is on
- auto power off to save battery life
- LED chain in five levels to indicate the gas concentration
- over 440 mm long flexible probe for measuring gas concentrations
- built in earphone jack
- mute function (device OFF)
- probe: semiconductor
- response time: under 10 seconds
- warm up time: max. 60 seconds
- operating temperature: -5°C to 45°C
- measuring range: methane 120 - 1920 ppm / propane 40 - 640 ppm
- also suitable for car LPG gas

Weight: 0,920 kg.
