

BGS Radiator Pressure and Cooling System Tester | 27 pcs.

- for pressurizing out and filling cooling systems
- facilitates the detection of leaks and allows for light, bubble-free filling, also of difficult-to-fill cooling systems

scope of delivery:

- 1 pressure pump
- 1 thermometer
- 1 filling hose
- 1 filling unit with vacuum gauge
- 2 radiator cover adaptors, for checking radiator cap for leaks and opening pressure
- 3 radiator adaptors, for printing & filling, suitable for many vehicles with radiator covers
- 15 adaptors for expansion tank, for pressurizing out & filling, suitable for almost all vehicles with expansion tanks
- 1 ring spanner for tightening/loosening the adaptors

Weight: 5,444 kg.
