

BGS Hose Pump

- the flexible hose pump is a pump for decanting water, diesel fuel and cleaning agents as well as other types of chemicals
- no manual suction necessary, which means no danger of swallowing unpleasant smelling or tasting liquids
- works from 150 mm water level
- not suitable for gasoline, other highly flammable liquids, drinking water and liquids in the food sector, such as juices, wines, cooking oils, etc.

just follow these three easy steps:

- 1. Place the suction head in the liquid which should be on a higher level and place the other end of the tube in a container below it.
- 2. Move the suction head quickly up and down a few times.
- 3. The liquid will automatically begin to flow through the tube.
