

BGS Soldering Connector Assortment | with Shrink Tube | 36 pcs.

- for use in the automotive, railroad, watercraft, aerospace, electric power and electronics industries
- clear heat-shrinkable sleeve with coloured ring
- simultaneous soldering and shrinking by heating
- by heating with a hot air device, the solder inside these insulating connectors connects the cable ends
- high tensile strength and elongation resistance
- in a practical assortment box
- temperature range: -55 to +125 °C

scope of delivery:

- 18 red soldering connectors, internal diameter 5.0 mm, external diameter 6.0 mm, length 38 mm
- 12 blue soldering connectors, internal diameter 6.0 mm, external diameter 7.0 mm, length 38 mm
- 6 yellow soldering connectors, internal diameter 7.0 mm, external diameter 8.0 mm, length 42 mm

Weight: 0,066 kg.
