

BGS Timing Chain Riveting Tool | for Mercedes-Benz

- used for changing and riveting of simplex and duplex timing chains
- suitable for newer and older Mercedes-Benz engines with 3 or 4 mm chain bolts
- new timing chain can be pulled by using the old chain
- disassembly of the timing chain case is eliminated

scope of delivery:

- disassembly pins, to be used as OEM 602589046301
- assembly link for 4 mm simplex chain, to be used as OEM 602589026300
- assembly link for 4 mm duplex chain, to be used as OEM 602589026300
- locking clip & plate for 4 mm assembly link, to be used as OEM 602589026300
- assembly link for 3 mm simplex chain, to be used as OEM 602589024000
- assembly link for 3 mm duplex chain, to be used as OEM 602589024000
- locking clip & plate for 3 mm assembly link, to be used as OEM 602589024000
- pressure piece for 4 mm chain pin
- pressure piece for 3 mm chain pin, to be used as OEM 112589069300
- pressure piece, to be used as OEM 602589026300
- pressure piece, to be used as OEM 103589016300
- rivet pressure piece for 4 mm chain pin
- rivet pressure piece for 3 mm chain pin, to be used as OEM 602589036300
- pressure piece, to be used as OEM 602589026300 / 8947
- chain riveting tool, to be used as OEM 602589003900
- fixing screw for pressure pieces
- chain cutting tool, to be used as OEM 602589023300/9312
- separating spindle for 4 mm chain bolts, to be used as OEM 602589046300
- separating spindle for 3 mm chain pins to be used as OEM 602589046300

Weight: 2,774 kg.
