

BGS Eccentric Flaring Tool Set | 45°

- practical flaring tool
- with eccentrically mounted cone made of hardened steel
- produces a gentle rolling motion and thus acts evenly on the flaring walls of the tube
- exchangeable clamping jaws for changing between metric and inch
- ergonomically shaped handle, comfortable to hold and non-slip
- incl. tools for shortening, deburring and 45° single flaring of pipes
- suitable for pipe diameters:
 - inch sizes: 1/4" - 5/16" - 3/8" - 1/2" - 5/8" - 3/4"
 - metric: 6 - 8 - 10 - 12 - 16 - 19 mm
- suitable for pipes made of copper, aluminum and thin-walled stainless steel

scope of delivery:

- 1 pressing spindle with eccentric cone
- 1 pipe deburrer
- 1 pipe cutter
- 1 clamping jaw holding tool, inch sizes
- 1 clamping jaw holding tool, metric

Weight: 3,515 kg.
