

BGS Soldering Connector Assortment | with Shrink Tube | 30 pcs.

- for use in the automotive, railroad, watercraft, aerospace, electric power and electronics industries
- clear heat-shrinkable sleeve with coloured ring
- simultaneous soldering and shrinking by heating
- by heating with a hot air device, the solder inside these insulating connectors connects the cable ends
- high tensile strength and elongation resistance
- in a practical assortment box

scope of delivery:

- 8 white soldering connectors, internal diameter 2.0 mm, external diameter 2.5 mm, length 25 mm
- 12 red soldering connectors, internal diameter 2.5 mm, external diameter 3.0 mm, length 41 mm
- 6 blue soldering connectors, internal diameter 5.0 mm, external diameter 5.5 mm, length 41 mm
- 4 yellow soldering connectors, internal diameter 5.5 mm, external diameter 6.0 mm, length 41 mm

Weight: 0,052 kg.
