

BGS Tire Cart | 200 kg

- stable steel tube structure, large push bars with PVC coating
- light transport trolley with high capacity
- for transporting four tires or wheels with Ø 550 - 750 mm
- allows heavy wheel sets to be moved efficiently using its unique tilting system
- automatic locking system makes additional hand or foot controls redundant
- adaptation of the jaws to the respective tire size
- foam tires (PU) prevent streaking on the workshop floor

Weight: 24,000 kg.
